[01 / COMPANY OVERVIEW](#)**Who We Are**

Timechain Technologies LLC is a veteran-owned small business focused on practical IT modernization, endpoint operations, cyber readiness, and AI-enabled workflow improvement for federal, defense, and regulated organizations.

The company is positioned for low-friction subcontract support, fixed-scope assessments, readiness sprints, and rapid technical execution. Founded by a U.S. Air Force veteran with 15+ years of enterprise IT operations experience supporting ~20,000 endpoints across Windows and iOS environments.

[02 / CORE COMPETENCIES](#)**Practice Areas****Endpoint Modernization & Compliance**

Microsoft Intune, Endpoint Manager, Windows Autopatch, MECM/SCCM modernization. Compliance policies, configuration profiles, application deployment, lifecycle governance, patch posture.

Patch Compliance & Remediation

Compliance baseline, failure-driver analysis, remediation workflows, deployment ring strategy, executive reporting, audit-ready operational evidence.

Enterprise Mobility / MDM / UEM

AirWatch / Workspace ONE to Intune / UEM migration. Pilot design, policy / profile / app mapping, phased cutovers, rollback planning.

CMMC / NIST / Cyber Readiness

CMMC L1 / FAR 52.204-21 readiness, NIST 800-171 roadmap support, endpoint evidence mapping, MFA documentation, SOP/runbook creation, supplier flowdown.

AI-Enabled IT Operations

Private knowledge assistant readiness, AI-assisted SOP/runbook generation, service desk workflow automation, documentation structuring, secure AI adoption planning.

[03 / DIFFERENTIATORS](#)**Why Timechain**

- ~20,000 endpoints supported in enterprise production (13K Windows / 7K iOS).
- 90% → 97.5% patch compliance lift through reporting discipline and remediation workflows.
- 5,000+ devices, 3,000+ users supported through MDM / UEM migration.
- Senior-led, low-overhead delivery — the person scoping is the person delivering.
- Veteran-owned, federal-aligned, structured for DoD supplier readiness.
- Microsoft endpoint stack — Intune, Autopatch, MECM, plus AirWatch / Workspace ONE migration history.

[04 / REPRESENTATIVE SERVICE OFFERINGS](#)**Fixed-Scope Engagements**

- Patch Compliance Assessment + remediation plan
- Intune / Windows Autopatch readiness + pilot plan
- MDM Migration Blueprint (AirWatch / Workspace ONE → Intune)
- CMMC L1 / FAR 52.204-21 readiness sprint
- NIST 800-171 / CUI readiness roadmap
- IT Ops Knowledge Assistant readiness
- AI Workflow Automation for service desk / endpoint ops
- Endpoint Modernization subcontract support

[05 / NAICS CODES](#)**Classifications**

[07 / TARGET CUSTOMERS & TEAMING FIT](#)**Buyers & Partners**

- Federal agencies (civilian and defense) modernizing endpoint and mobility
- DoD contractors and subcontractors preparing for CMMC / FAR 52.204-21
- Prime integrators needing senior subcontract capacity on task orders
- Managed service providers scaling Intune, Autopatch, and UEM delivery
- Regulated enterprises modernizing Microsoft endpoint environments
